# Introduction

All praise is due to Allah the most High, may Allah send His blessings on the Prophet Muhammed ﷺ, his family and companions.

Assalamu Alaikum!

The **Mini Mu'min** program was developed in a partnership with Ad-Duha Institute. It is a comprehensive learning package for 2-3 year olds, covering all basic skills in the English and Arabic languages, as well as providing an introduction to Islamic supplications. The following materials are included in your package:

**Program Guide (manual)**  
**Building Blocks Series (book set)**  
**Du'a Series (book set)**

This guide is intended to offer assistance and advice on how to use the materials you have received. It is broken down into the following three parts:

**Part I: Building Block Series**  
**Part II: Du'a Series**  
**Part III: Skill Building Activities**

Parts I and II detail special features built into the books in this package, intended to make the teaching/learning process easier for you and your child. These sections also detail how to use these books on a daily basis as a program of learning that will prepare your child for the next step in their education.

Part III is filled with supplemental activities designed to build additional foundational skills, as well as practice and review for the information learned in this course.

Please take a few moments to read through this guide so that you will get the most out of this program. May Allah make it of benefit to you and your child in this life and the next, and forgive us for any error in it. Thank you for purchasing this program and supporting Islamic educational products like these.
